Task 3

Help them make a budget

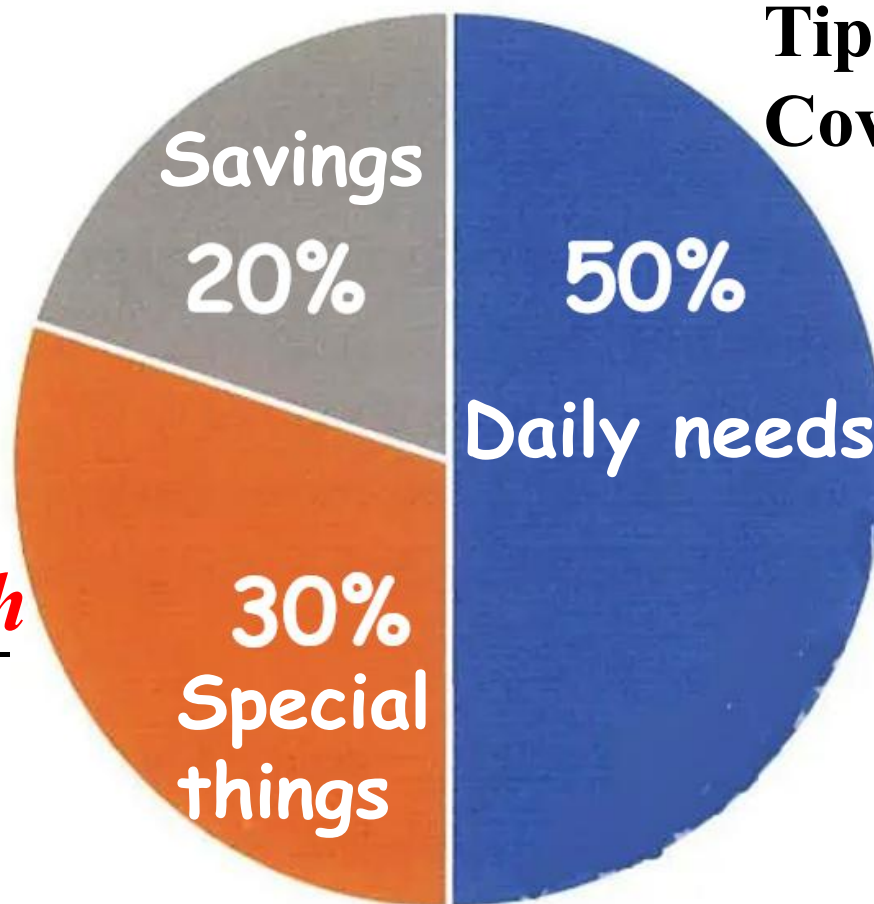

Simon's family budget

My dad and mom manage money well. They make a budget every year. They cover my education first, and pay for other daily needs. All these cost about 50 percent of our budget. We also spend about 30 percent on special things like holidays. It is important to save money. My parents always leave about 20 percent of their money in the bank account. It's a good idea to save for a rainy day.

It's my great honor to make a budget for them. Now they have 1500 euros. I think they need to cover daily needs first, for example, food, traffic and rent. All these cost about 47 percent. It's important for them to save money. They can leave about 20 percent in their bank account for a rainy day. The rest 33 percent goes to special things. Taking a holiday is a good idea for them to relax. What's more, they can donate some money to UNICEF to help children in need. #chinese restaurant##make a budget# @湖南卫视中餐厅
